

ISHFAQ DAR

Python Backend Developer

Email: Dar1.Ishfaq36@gmail.com | GitHub: <https://github.com/Dar-Ishfaq-Backend> | [LinkedIn: https://www.linkedin.com/in/ishfaq-dar-aaa277240/](https://www.linkedin.com/in/ishfaq-dar-aaa277240/) | +91 9103549500 |

PROFESSIONAL SUMMARY

Results-driven Python Backend Developer with 1.3+ years of experience designing and building scalable REST APIs, microservices, and data pipelines. Proficient in FastAPI, Flask, PostgreSQL, and Docker. Passionate about clean architecture, performance optimization, and delivering production-ready backend systems that handle real-world traffic reliably.

TECHNICAL SKILLS

Languages	Python, SQL, Bash
Frameworks	FastAPI, Flask, Django REST Framework, Celery
Databases	PostgreSQL, MySQL, MongoDB, Redis, SQLAlchemy, Alembic
DevOps	Docker, Git, GitHub Actions, CI/CD, Nginx, Linux, AWS EC2/S3/RDS
Data	Pandas, NumPy, Scrapy, BeautifulSoup, Apache Airflow
Testing	Pytest, unittest, Postman, REST Client
Other	JWT, OAuth2, REST API Design, Microservices, WebSockets, RabbitMQ

WORK EXPERIENCE

Python Backend Developer — Freelance

2023 – Present

Self-Employed · Remote

- ▶ Designed and built REST APIs for 5+ clients using FastAPI and PostgreSQL, serving production traffic with zero critical incidents.
- ▶ Developed an authentication microservice with JWT, OAuth2 social login, and Redis-backed token management handling 10k+ concurrent sessions.
- ▶ Built a web scraping automation platform with Scrapy, proxy rotation, and MongoDB storage, processing 50+ data sources daily.
- ▶ Delivered all projects with full API documentation, Docker deployment, and CI/CD pipelines via GitHub Actions.

Python Backend Intern

Jun 2022 – Dec 2022

TechWave Solutions · Lagos

- ▶ Contributed to a microservices-based e-commerce platform, building the product catalog API with advanced filtering and pagination.
- ▶ Optimized slow PostgreSQL queries reducing average response time by 40% through proper indexing and query restructuring.
- ▶ Wrote unit and integration test suites using Pytest, achieving 88% code coverage across assigned modules.

- ▶ Collaborated in a 6-person engineering team using Git, daily standups, and code reviews on GitHub.

KEY PROJECTS

Auth & User Management API

2024

FastAPI · PostgreSQL · Redis · Docker

- ▶ Production-ready authentication system with JWT refresh tokens, RBAC, OAuth2 (Google/GitHub), and brute-force protection.
- ▶ Deployed with Docker Compose + Nginx reverse proxy; supports 10k+ concurrent sessions via Redis session store.

Data Analytics Dashboard Backend

2023

FastAPI · TimescaleDB · Pandas · Celery

- ▶ High-throughput API ingesting 500k+ events/day with time-series aggregations, streamed CSV exports, and webhook support.
- ▶ ETL pipeline using Pandas/NumPy with Celery periodic workers; Redis caching reduces dashboard query time by 70%.

Task Management REST API

2023

Flask · MySQL · Celery · RabbitMQ

- ▶ Full-featured task management backend with real-time WebSocket updates, file attachments (S3), and automated email reminders.
- ▶ 92% Pytest code coverage; complete OpenAPI documentation via Swagger UI.

EDUCATION

Master of Science in Information Technology (MSc IT)

Islamic University of Science and Technology, Kashmir

- Subjects: Python, Database Systems, Computer Organization & Architecture, Discrete Mathematics, Full Stack Development.

Bachelor's in Science (Non-Medical)

Cluster University, Srinagar

- Studied core subjects along with IT
- Learned: C, C++, Java, MySQL

CERTIFICATIONS

AWS Certified Cloud Practitioner

2023

Amazon Web Services ·
